Free forever for businesses & service providers

Zero obligation. Ignore anytime. Website !’ AI tickets (we do not answer your phone yet).

MyProblem gives providers a free intake path: visitors capture audio and stills; Projects investigate; you open a dossier only when you choose to look. No application fee, monthly bill, or per-lead invoice — businesses and service providers stay $0. Customer PII stays on their device; network tickets use safe locality (city / coarse band). Georgia & Israel pilots.

WHAT YOU GET

- $0 forever — no application fee, monthly bill, or per-lead invoice.
- Zero obligation — ignore any request. Silence is fine.
- Website !’ ticket, not phone — unsure visitors capture audio + stills (desk stays quiet).
- One question on screen while they talk and show the problem, until the requirements are specific.
- PII-safe dossiers — street/phone stay off the network; request details via secure DM only when needed.
- Warmer handoffs — investigation notes on the tip when you engage.
- Legal stops — emergencies and licensed care redirect.

Receive !’ review AI dossier !’ accept, ask, or ignore entirely !’ manage only what you accept.

HOW IT WORKS

1. Sign up at $0 — still no duty to answer anyone.

2. Point your site at tickets — audio + stills when capacity allows.

3. Open the tip — photos + notes, PII already converted to safe context.

4. Accept, bid, or ask — or ignore entirely.

WHO PAYS (NOT YOU)

Businesses and service providers never pay. Infrastructure is funded by consumer free uses and optional consumer priority fees. We do not invoice providers or punish silence.
