Free forever front door — ignore anytime

We do not answer your shop's phone (yet). Link your website to MyProblem ticket creation — people record audio + stills; deferred Projects investigate thoroughly. Incoming work is a social-style feed: open a fit, or ignore entirely. Georgia & Israel pilots. Future VoIP can automate the same flow.

Receive !' review AI dossier !' accept, ask, or ignore entirely (no obligation) !' manage only what you accept.

WHAT YOU GET

- $0 to join — no application fee, monthly bill, or per-lead invoice.
- Zero obligation — ignore any request like a social post. Silence is fine.
- Website !' ticket, not phone — send unsure visitors to MyProblem audio/stills capture (no ringing the desk).
- Warmer handoffs — dossier on the tip when you do engage.
- Legal stops baked in — emergencies / licensed care redirect.

HOW IT WORKS

1. Sign up at $0 — still no duty to answer anyone.
2. Point your site at ticket creation — audio recording + stills; Project when capacity allows (we do not take phone calls yet).
3. When real, open the tip with photos + investigation notes already done.
4. Accept, bid, ask — or ignore entirely. After handshake, the deal is yours.

WHO PAYS (NOT YOU)

Shops stay free forever with zero response obligation. Infra is funded by consumer free uses, then optional consumer priority fees. We do not invoice shops or punish silence.
