MyProblem

myproblem.app · Free forever for local businesses

Free forever front door for local businesses

MyProblem absorbs “should I call?” before it hits your phone. Smart capture fills the ticket; a JIRA-like queue batch-investigates ASAP and thoroughly — Bedrock only for rare hard cases. Public lessons feed a Georgia- and Israel-only knowledge base. Ready customers arrive with a real dossier—not a cold call.

Business workflow: receive requests !’ review AI dossier !’ accept, ask, or ignore entirely (no obligation) !’ manage work you choose. Ticket icon = MyProblem brand.

WHAT YOU GET

- $0 to join. No application fee, no monthly bill, no per-lead invoice.
- Zero obligation — ignore any request entirely (like a social feed). No SLA, no must-respond, no penalty for silence.
- Lighter front desk — routine triage and redirects never reach the secretary.
- Warmer handoffs — Project notes on the tip; local KB stays place-tied.
- Legal stops baked in — emergencies and licensed care redirect; we do not practice medicine or vet medicine.

HOW IT WORKS FOR YOUR SHOP

1. Sign up at $0. You appear as a local option — still with no duty to answer anyone.
2. AI handles unsure callers first — capture now, Project research when capacity allows.
3. When it is real, you open a Problem tip with the dossier already done.
4. Accept, bid, ask — or ignore entirely. Silence costs nothing. After handshake, the deal is between you and them.

WHO PAYS (HINT: NOT YOU)

Businesses stay free forever with zero response obligation. Infra is funded by consumer free uses on elastic compute, then optional consumer priority fees—and optionally a small payment-rail fee if checkout is hosted. We do not invoice shops or punish silence.

PILOTS

Georgia (USA) and Israel — product and knowledge base scoped there. Want your region? Email us.
